One of the first tasks you will want to do on Metamask is to install a wallet (or “vault” as Metamask calls it) to hold your cryptocurrencies. To do this, follow the instructions below.

Step 1. Open your app when is installed correctly.

Step 2. Read and agree to the terms and conditions. You may have to agree to 2 to 3 pages worth of terms.

Step 3. Enter a password and click “Create” to create your wallet.

Step 4. You will see a set of 12 “seed words” for your vault. Click “Save Seed Words as File” and copy the “MetaMask Seed Words” file that is downloaded to a safe place. You will need it to access your vault.

Step 5. Click “I’ve Copied It Somewhere Safe” once your seed words file has been secured. You’ll be taken into your Metamask wallet!
